

Day trip to Burana Tower & Chon-Kemin valley

Страна: Kyrgyzstan

Organizing any complexity of tours to Issyk-Kul, Son-Kul, around Kyrgyzstan and Central Asia. We guarantee you high quality of service and individual approach!:

The Burana Tower, which stores its secrets for centuries, will finally unveil a few mysterious legends for you. You'll be able to climb the tower and visit the open-air museum of Balbals (stone warriors). Further, drive to Chon-Kemin valley (135 km from Bishkek) which is a perfect gateway for 1-2 days with comfortable accommodation. You can go horseback riding and experience true nomadic lifestyle in the fresh air, surrounded by the beauty of local terrain. Acquaint yourself with Kyrgyz cuisine in a friendly family setting.

Program

Duration: 6-7 hours

Location: 135 km from Bishkek

Altitude: 1400-2800 m

Season: whole-year-round

The tour is a great opportunity to dive into history and experience a nomadic lifestyle while enjoying nature on horseback in the beautiful Chon-Kemin valley, a protected region which is home to some of the most diverse flora and fauna in the country. Its landscapes vary from semi-deserts to towering glaciers and the region is home to snow leopards, red deer and golden eagles. Chon-Kemin is a unique natural reserve with beautifully preserved alpine landscape. Steep glaciers are fringed with green coniferous forests and the valley is surrounded on all sides by towering mountain peaks. After the rainy season, the valley blooms with wildflowers which spread as far as the eye can see.

On the way, stop to visit Burana Historical Tower, one of the few historical buildings in Kyrgyzstan, a UNESCO world heritage site as the remnant of an old Silk Road town. The tower is part of the minaret of the town of Balasagun that was the capital of the Karahanid Dynasty in the 11th century. In 1974 the tower was restored and now you can climb up through the inside the tower and enjoy the beautiful view of the surrounding mountains. Around the tower you find Balbals (stone warriors) from between the 6th and 10th centuries. The small museum contains more artifacts collected in this area.

Delicious homemade lunch at a local village will be a nice addition to the day.
